

Jeff Philley - ALS Room

Tim,

I surveyed nine parents/guardians of adaptive life skills students in a Google Form and subsequently gave four family tours of our proposed relocation. I have the survey results to show you next time you stop by, but they include a lot of confidential student info (mostly related to their student's specific needs) so I won't include them in this email. All parents greatly supported the proposed location and had many supportive ideas regarding the layout of the room and additional physical supports. I'll talk to Wayne about some parent ideas but I think the largest cost outside the basic architecture would be a remodel of the old shower. I don't support Wayne's idea about a kitchen at this time unless we can get the teacher office, bathroom and storage in place. Let me know if you want to discuss more. Thank you for your leadership with this project. Jeff
