11/4/2020

Dear CVE Families,

On Friday, October 30, Governor Brown announced a new set of state metrics for opening schools. For the Coquille School District, this change will allow us to open CVE to grades 4, 5, and 6. Families who would like to continue with distance learning may do so. The turnaround time is fairly quick as our two week data that says we can open could change on November 13. If we are not open for grades 4-6 by then, the new data could prevent that from taking place.

With limitations on our building space and our expanded safety requirements that require supervision, we are going to adjust our CVE system to ensure all students in grades 2-6 can access their education both through distance and on-site. CVE is busy working with the district office, transportation, and food service to determine a firm daily schedule and starting dates. Please note, there are changes to ALL GRADES that attend Coquille Valley Elementary.

2nd and 3rd Grades: Students will continue to attend full-time Monday-Thursday. Students will attend ½ day in the morning on Friday. This schedule will apply to all 2nd and 3rd grade students, both in person, and those participating through distance learning. If you would like to make a change regarding your student's access to learning (switch from in-person to distance, or distance to in-person), please contact the CVE office.

4th, 5th, and 6th Grades: Students will attend ½ days Monday-Thursday and every other Friday. Students will be placed in a.m. or p.m. cohorts. If your student remains in distance learning, they will be placed in an a.m or p.m cohort to attend class through Google Meet. Students will continue to complete assignments from home when not at school physically or virtually. Each student will receive a Google Form from their teacher. The form will indicate whether you wish your student to attend in-person, or remain in the distance learning model. You can also submit your preferences for a.m. or p.m. cohorts. We will do our best to accommodate the needs of your family. Please return the survey as soon as possible. The information is used to create stable cohorts for students and staff.

Coquille Valley Elementary is starting its own school Google Classroom called the CVE Eagles' Nest. Moving forward, this is another location where we will be posting important updates and information about all things CVE. You can join by entering Google Classroom, clicking the plus sign in the top right corner, and using the class code **umjsr6l**.

Everyone at Coquille Valley would like to thank our students, families, and community for their hard work so far this unusual school year. Remember, we are here to help. We will continue to answer questions and troubleshoot any problems you might encounter. Please keep checking the district website, your child's Google Classroom/Site, and the CVE Google Classroom site for updated information.

Thanks again,

Geoff Wetherell
